

Quick setup

Set Up Your SongBuddy

Download the SongBuddies app on iPhone, or go to songbuddies.com if you do not have an iPhone. Then scan the QR paw and attach a Spotify song.

iPhone: download the SongBuddies app first

Scan this code to open the App Store. No iPhone? Go to songbuddies.com, then start by scanning the QR code on the toy.

1. Start on your phone

iPhone users can open the app. Everyone else can go to songbuddies.com.

2. Scan the QR paw

Point your phone camera at the QR paw on your SongBuddy toy.

3. Create or log in

Make a SongBuddies account so your Buddy, song, and setup stay connected.

4. Name your Buddy

Choose a name, add a message, and make the Buddy feel personal.

5. Attach a Spotify song

Search for a song, preview it, and save the one you want.

6. Start Music Time

Play music with your Buddy to build friendship and care progress.

Try the demo scan

Scan this sample code to see what the SongBuddy experience looks like before setup.

Privacy note: SongBuddies uses QR setup and Spotify links. Music Time is designed for playing songs with your Buddy, not recording conversations.
